

Front End Developer Skills Test 02

Instructions

You have exactly **96 hours** to complete this assignment.

Send an email with the subject "Front End Skills Test 02" to president@minorityprogrammers.org and cedrick@minorityprogrammers.org with the following

- Your Github repo link and share the repository (name the repo "Minority-Programmers-Front-End-Test" with @codingshot on Github)
- The deployed link (deploy on any hosting service of your choice - if you are a student [get Github Student Developer pack here](#)) to your React App
- Share a video containing (youtube unlisted link with title YOURNAME_MinorityProgrammers_FrontEnd_Skills_Test)
 - quick demo of your React App
 - a quick code review on an IDE like VS Code
 - An explanation of your process and future improvements you would make.

Code out the following wireframes ([FIGMA LINK TO WIREFRAME](#)) as a pages on the [minorityprogrammers.com](#) website

- using [ReactJS](#) and react components.
- Develop A Custom Homepage that has a link to the incubator (first two wireframes) and learn page (all the rest wireframes)
- make sure to use [mapping](#) to make each repeatable component from the data from a JSON file (where you will put your dummy data)
 - You must figure out dummy data based on the data shown in wireframes
- Make sure to use [dynamic routing](#) to for courses, modules, activities and startups etc; minorityprogrammers.com/startup/:startupID for individual startup page
- Use variables instead of hard code for data that would be pulled from your JSON dummy data
- Develop a navbar with a "Home, Incubator, and Learn page" (change current navbar design)

- In homepage, put links for the Learn and Incubator Page (as tiles with information on each underneath)
- Make sure to design your app to be responsive
- Make sure to you hover effects and pointer cursor effects to show international

Branding

- keep branding and styling consistent with mpa

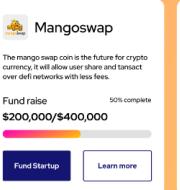

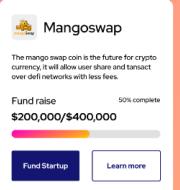

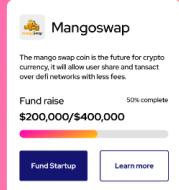

Invest directly into minority innovations.
